Cory Sipper is a certified yoga instructor who has been practicing yoga for 16 years and teaching for 7 years. Her advanced studies in both Yin Yoga and Therapeutic Yoga were of assistance to her in the development of 'yoga for conception'- a

gentle practice she created for herself during her own struggle with infertility. After becoming pregnant with her first child, Cory decided to share this practice with all women who are on the journey to motherhood. Cory has written about yoga's healing powers in connection with infertility for several publications, including Yoga Journal. A clear and compassionate teaching style combined with her first-hand experience in trying to become pregnant makes Cory a wonderful guide for this very special workshop.
